

Make a Monster!

Follow the directions below to make your own scary monster!

You will need:

- Paper
- Colored pencils or markers
- One die (or a pair of dice, if you want!)

Directions:

Once you have everything you need, use the table below to figure out what your scary monster looks like. Roll the die to determine how many of each body part your scary monster has:

Body Part	How Many?
Heads	
Torsos	
Legs	
Arms	
Mouths	
Eyes	

Now, roll the die to figure out if your monster has any accessories! If you roll an EVEN number (2, 4, 6) your answer is YES. If you roll an ODD number (1, 2, 3) your answer is NO. If you rolled a YES, roll your die once more to see how many of that accessory your monster has.

Accessories	Yes or No	How Many?
Spikes		
Horns		
Teeth		
Hairs		
Tails		
Claws		

Now that you know what your scary monster has, draw it on your piece of paper! Use any colors you like and don't forget to give your scary monster a name!
